Objective: The objective of the website is to help people who are currently on a ketogenic diet. The site will show foods and recipes with appropriate ingredients and nutrition facts to keep track of carbohydrates and fats intake.

Features:
- Ability to search for recipes by entering food item(s). The recipes will be returned as cards(Title,Image,Ingredients, Favorite, Rating, link)
- Create/Edit/Delete a recipe with ingredients you provide. It will be added to the main page as a newest recipe
- Ability to leave a comment on the particular recipe, make it a favorite one, give it a rating.
- By creating a recipe, a user will be able to see nutritional facts
- Users also will be able to see nutritional facts of the food/ingredients and if those ingredients are ketogenic/paleo foods or not.
